

MULTISLANGE

Materiale:

Yder kappe: Beskyttende lag af LDPE, EVA, PVC (V0) eller TPE (Termoplastisk gummi)
Inder slange: Slange af PA, TPU, PE, andet materiale eller en metaltråd, ledning eller dorn

Karakteristik:

Det er muligt at ekstrudere en beskyttende kappe udover en flerlags kombination af slanger, ledninger, kabler, metaltråde, reb eller andet. De mange muligheder for valg af både kappe materiale og inder konstruktion gør det muligt at designe et produkt som er skrædder syet til de specifikke behov som gør sig gældende ved en given anvendelse.

Venligst kontakt os for en mere detaljeret diskussion vedrørende det optimale design til den ønskede anvendelse.

Dimension:

Standard: 2,0 til 45 mm
Specialiteter: Efter forespørgsel

Farve:

Yder kappe: Standard farver er sort, blå og rød.
Andre farver efter behov.
Inder slange: Slange i forskellige farver eller med print

Print:

Slangerne kan printes med sort eller hvidt print mod 2,5 % tillæg

Minimum ordre:

Afhængig af materiale kombination

Emballage:

Standard: Ruller af 25, 50 og 100 meter (max. 50 kg pr. rulle)
Specialiteter: Efter forespørgsel

Kan alternativt leveres på spoler eller i papkasser

Typiske anvendelser

- Pneumatik
- Automobil industrien
- Kontrol systemer
- Udstyr til den kemiske industri
- Dentaludstyr
- Multi-funktions konstruktioner (luft, vand, strøm, etc.)

MULTI HOSE

Material:

Outside: Protective layer of LDPE, EVA, PVC (V0) or TPE (Thermoplastic rubber)
Inside: Tube of PA, TPU, PE or other material or wires, cables or mandrels

Characteristics:

Possibility to cover almost any kind of hose, tube, cable or wire in a multi-layer construction, where the outer layer functions as a protective cover.

The flexibility in choice of material for both inner and outer layer gives a unique possibility to make a tailor-made product, which suits the exact needs for any application and functionality

Please contact us for a detailed discussion about the optimum design for specific application.

Dimension:

Standard: 2,0 to 45 mm
Specialities: On request

Colour:

Outside: Standard colours are black, blue and red.
Other colours on request.
Inside: Tubes in different colours or with printing

Print:

Black or white printing on hoses at an additional charge of 2,5%

Minimum order:

Depending on the design

Packaging:

Standard: Coils of 25, 50 and 100 meters (max. 50 kg per coil)
Specialities: Other length on request.

The hoses can be supplied in boxes or on spools

Typical applications:

- Pneumatic
- Automotive industry
- Control systems
- Chemical equipment
- Dental equipment
- Multi functional constructions (air, water, power, etc.)
